

WOODZONE MASONRY BIOCIDES

DESCRIPTION

A fungicide based on 3-Iodo-2-Propynyl-Butyl-Carbamate. It is supplied in a small plastic container. It is designed to eradicate the Dry Rot fungus from masonry and soil by low-pressure non-atomised spray to refusal on the affected surfaces and by irrigation via holes drilled into walls or floors.

Kingfisher Building Products formulations are all cleared under the Governments Pesticide Safety Precaution scheme and under the Control of Pesticide Regulations 1986, for use as directed and carries the HSE Approval No 9178.

BENEFITS

- Super concentrate
- Good penetration
- 1-Hour re-entry
- Fully solvent free technology
- No VOC's
- Significant reduction in plastic waste
- Significant reduction in paper waste
- Virtually no odour

PREPARATION & APPLICATION

Thoroughly clean all wall areas and oversites to remove any surface fungal growth or strands, using a stiff broom or a wire brush.

Dilute the Woodzone Masonry Biocide 160gm container with 25 litres of water.

Sterilise all exposed wall areas with two coats of Woodzone Masonry Biocide to the joints, followed by an overall surface application, using brush or coarse spray. (Do NOT use atomiser sprays). Oversites should be thoroughly sprayed until saturated with fluid. However, where severe attacks of dry rot in masonry have occurred we recommend the following traditional irrigation treatment.

The wall should be drilled deeply (two-thirds depth) at 23 cm (9") staggered centres at a downward angle to ensure full penetration of the fluid. N.B. Irrigation should only be undertaken when there is demonstrable need for deep penetration of fluid.

CONTENTS

3-Iodo-2-Propynyl-n-Butyl-Carbamate 15.30%w/w

COVERAGE

Coarse Spray 1 litre to 2-5m²
Irrigation 2.5 litre per m² for 230mm (9") brickwork or 10 litre per m³

HEALTH & SAFETY PRECAUTIONS

To avoid risks to man and the environment comply with the instructions for use.

- The COSHH (Control of Substances Hazardous to Health) Regulations 2002 (as amended) apply to the use of this product at work.
- Avoid excessive contamination of coveralls.
- Do not contaminate foodstuffs, eating utensils or food contact surfaces.
- This material and its container must be disposed of in a safe way.
- Avoid contact with skin.
- Avoid contact with eyes.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- Do not empty into drains
- Remove or cover all fish tanks and bowls before application.
- Wash hands and exposed skin before and after meals.
- Keep in a safe place.
- Keep out of the reach of children.
- Keep away from food drink and animal feeding stuffs.
- If swallowed, seek medical advice immediately and show this container or label.

STORAGE

Should be stored in a dry cool place.
